Accessing shares with Active Directory credentials

Scripts Used in this Video

Install Put Shares on Dock-Mobile Config Profile

Download Profile

curl http://installs/installs/Settings_for_Put_Shares_on_Dock.mobileconfig -o "/tmp/Settings_for_Put_Shares_on_Dock.mobileconfig"

Import Profile

/usr/bin/profiles -I -F "/tmp/Settings_for_Put_Shares_on_Dock.mobileconfig"

Delete Profile

rm -rf "/tmp/Settings_for_Put_Shares_on_Dock.mobileconfig"

Remove Put Shares on Dock Profile

You must run "sudo profiles -L" to get your profile name. This one won't work for you.

profiles -R -p "com.apple.mdm.Administrator's Mac Pro.ee37c4a0-4abf-0137-e31a-003ee1c48f42.alacarte"
