Beginning C++ Programming
Sequence Containers - Deque

At about 3:04 in this video the following code is incorrect:

```
std::cout << d.max_size;
```

It should be:

```
std::cout << d.max_size();
```

Thanks to Gianni for pointing that out.

At about 5:27 in this video the following code is incorrect: (Note the mismatched paren and curly).

```
d.emplace_back("Larry", 19};
d.emplace_front("Moe", 24};
```

It should be:

```
d.emplace_back("Larry", 19);
d.emplace_front("Moe", 24);
```

Thanks to Peter for pointing that out.
