- Topic Name: Footprinting and Recon
- Episode Name: Social Networking Recon

Social Networking Recon

Objectives:

- Gather information about target's personnel through Social Media using common OSINT tools

-
- What are we trying to learn from Social Media sites?
 - Company Info
 - Employee Info
 - Email addresses
 - Job Titles
 - Interests
 - Technologies used in the org
 - Badges
 - Professional connections
 - 3rd-party details
 - What Social Media sites should we be looking at to gather this info?
 - The usual cast of characters
 - Facebook
 - LinkedIn
 - Twitter
 - Is this a manual process, or do we have tools that can automate for us?
 - Demo
