- Topic Name: Footprinting and Recon
- Episode Name: Job Board Recon

==

Job Board Recon

Objectives:

- Gather useful target information like employed technologies and organizational structure through searching job board posts

---

- We're talking about recon and today's show is about using Job Boards for that purpose. Can you help us put the puzzle together on how that works?

    - Job boards contain a lot of information

        - Job roles
        - Contact Info
        - Locations
        - Email Addresses
        - Implemented technologies

- Can you show us an example of what Job Board Recon looks like?

    - Search job postings
