kubernetes
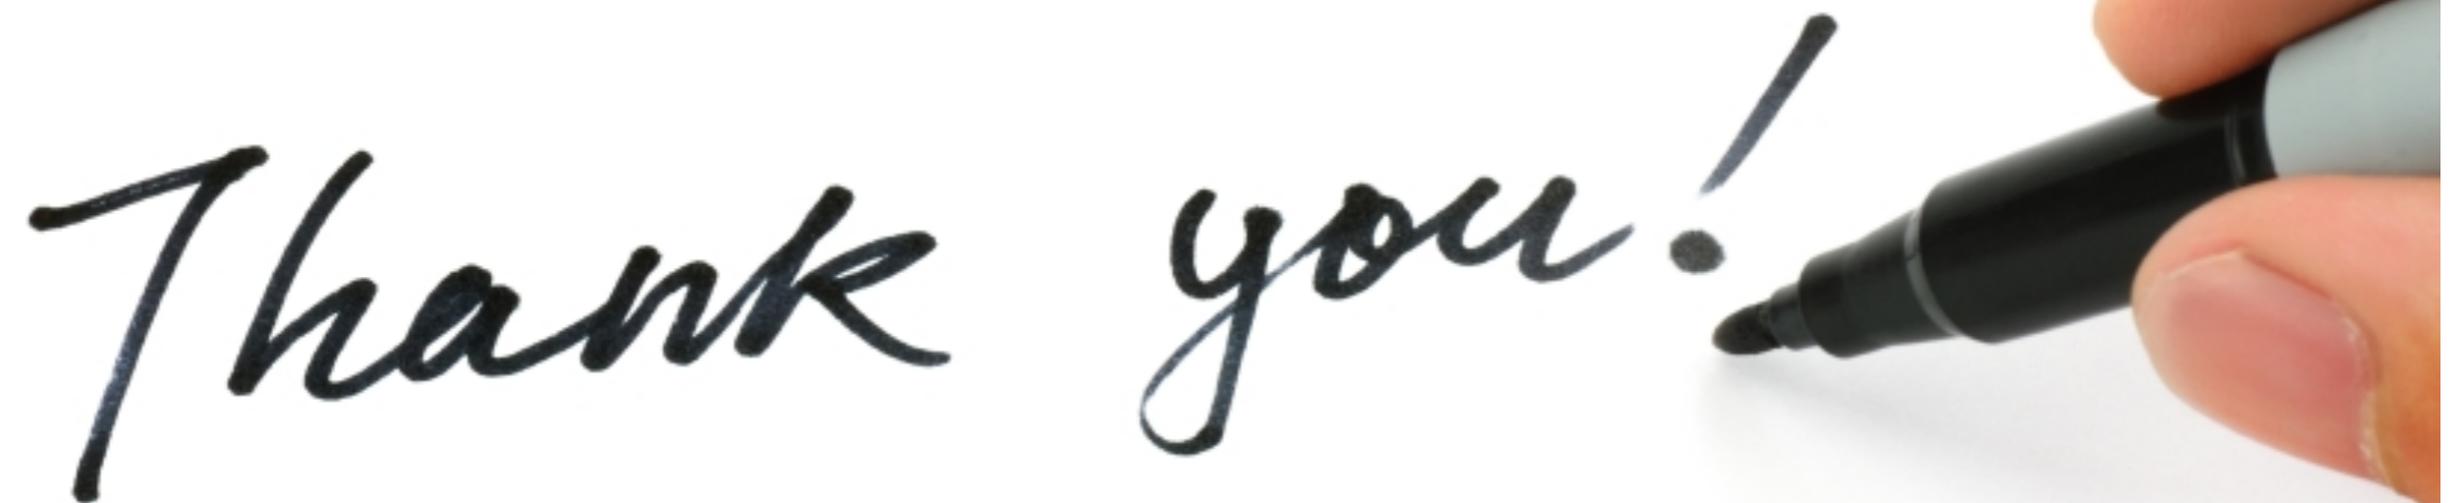

Kubernetes: Kops Introduction

➤ Kops is an official Kubernetes project for managing **production-grade** Kubernetes clusters.

➤ Kops Stands for **Kubernetes Operations**.

➤ Kops is currently the best tool to deploy **Kubernetes clusters** to **Amazon Web Services**.

➤ Kops has commands for **creating clusters**, **updating settings**, and **applying changes**.

➤ Kops automates a large part of operating Kubernetes on AWS.

➤ Kops only works for **Mac/Linux.**
