

Access Control Exercise 2

Intro

A new token "To The Moon" was deployed on Binance Smart Chain. Unfortunately the deployer didn't mint any tokens for you, can you get some tokens anyway?

Accounts

- 0 - Deployer
- 1 - User1
- 2 - Attacker (You)

Tasks

Task 1

Find a way to own more than one million tokens in your attacker account

Task 2

Fix the vulnerability in the token contract
