

# Access Control Exercise 3

---

Kilian is a luxury fragrance brand known for its high-quality, unique scents and packaging.

The company decided to join the Web3 Metaverse and sell its fragrances on-chain as an NFT.

The NFT makes you a Kilian VIP member, and you get a yearly refill for the fragrance you own.

While Kilian is good at perfume making and marketing, let's say they could improve at smart contract development

## Accounts

- 0 - Deployer
- 1 - User1
- 2 - User2
- 3 - user3
- 4 - Attacker (You)

## Tasks

### Task 1

Get all the ETH from the NFT purchases by hacking the Kilian NFT smart contract
