

Post Exploitation - Windows 10 Hacking revisited

Once we have access to a machine, we can perform different actions on our target. We may try to extract data, elevate our privileges to root or try to hide our presence

METERPRETER

- **webcam_stream** to stream the webcam of the target
- **keyscan_scan** to start logging keystrokes
- **screenshot** to take a screenshot
- **screenshare** to stream desktop screen
- **run winenum** enumerate detail about the windows system
- **shell** get a shell

DEMO

THANKS
